Abstract

Little Meme. Big Ambition. Welcome to BRUNO...

BRUNO INU was created in January 2022 with the goal of being a dentralized
meme project with true purpose.

BRUNO's mission is to bring utility and popular cryptocurrency concepts to the mainstream. Unlike older, comparable projects, BRUNO introduces holders to next-gen concepts such as Hyper Advanced Swap, Redistribution Tracker, RugChecker, decentralized exchanges, and many other high-end tech products. BRUNO's products will be tied together to become one big, intricate, and fun ecosystem, where every other product complements each other. The only thing you need to get access for the full potential? The BRUNO INU native token.

As an early community member, you will have the opportunity to join a global movement, whose sole purpose is to build a top MemeFi project. Together, we will bring utility and unification across the entire meme universe.

How will BRUNO INU take over the meme coin universe? Very simple. We will combaine the best products and missing solutions at the market, a steady community and actual utility.

Our Roadmap can be viewed on [Trello](#) progressively in live.

The BRUNO INU project includes...

$BRUNO TOKEN
An ERC20 meme token that fosters and promotes Healthy and widespread usage and decentralization of the project through a specific reward function linked to user's transactions involving decentralized wallets.

BRUNO HYPER ADVANCED SWAP
Decentralized exchange that features hyper advanced custom functionality that are never-seen before and allows holders to trade among themselves and without any centralized point of failure any ERC20 token for another.

REDISTRIBUTION TRACKER
Wallet tracker where users can track their Redistribution and rewards out of various tokens usage, current token valuations, wallet balance, and more.

GOVERNANCE
The BRUNO INU token enables community ownership and active stewardship of the Ecosystem by creating proposals.

TOKEN ANALYTICS
Analyze different tokens and make data-backed decisions on your daily investments.

HYPER ADVANCED RUG CHECKER
The automated audit relies on different sources of data about the given token and gives top-tier information on what's currently available.

MARKETPLACE
Trade various BRUNO INU related products/NFTs to fund certain marketing funds proposed by the living community.

COMPARISON
Compare two tokens between their market cap differences, token fees, risks, volatility comparison, and other security factors.

02
Values

TRANSPARENCY & COMMUNITY

BRUNO INU is ownerless, fully decentralized and Supported by its community of enthusiasts. Free, open and frank communication is encourage Within the community supporters so that everyone willing can be informed and even participate in every step of BRUNO INU's growth! Multiple, Independent, free group efforts in development, community self-management and more are Strongly encouraged.

TRUST

In the cryptocurrency market, Trust is paramount. That means full transparency not only in the community support and development, but also in any security effort. Examples include top-grade audits of BRUNO INU's code, and liquidity tokens being locked for a long-term to strongly reduce any risk of malicious behavior.

LONGEVITY

BRUNO INU is in it for the long haul. The decentralized community is fostering long-term development of the ecosystem which will result in real use cases, greater rewards and a popularity beyond any temporary trends.

03
$BRUNO Token

BRUNO INU is an ERC20 token which started on the Ethereum blockchain January 19, 2022.

The max supply is 1 trillion and one of its key functionalities is its decentralized usage rewards and funding mechanism. For every active user transaction a 1% $BRUNO reward is granted to holders' decentralized wallets only, fostering a healthy distributed network and community usage and sends 8% in Ethereum to the development wallet. The more $BRUNO is actively used, the more rewards are granted.

The BRUNO INU Token Smart Contract successfully passed a top-grade security **audit** to further the community's confidence, in full transparency.

BRUNO INU is a fully decentralized and community driven project – BRUNO liquidity pools and listings are constantly added by many completely independent enthusiasts and supporters in a number of different exchanges, among which:

EXCHANGES	
UniSwap	9% Slippage
Shiba Swap	9% Slippage
Sushi Swap	9% Slippage
Bruno Swap	9% Slippage

04
Ecosystem

BRUNO HYPER ADVANCED SWAP

BRUNO HYPER ADVANCED SWAP is a decentralized exchange (DEX) where users can swap any ERC20 token for another one.

It is powered by Uniswap, 1inch, and other various APIs to offer the most advanced Swap on DeFi existing and acts as the foundation on which BRUNO INU will develop further functionality and use-cases for any BRUNO INU holder.

GOVERNANCE

The BRUNO INU token enables community ownership and active stewardship of the Ecosystem by creating proposals.

It is powered by Uniswap's governance application, the largest and safest DEX in the world.

HYPER ADVANCED RUG CHECKER

The automated audit relies on different sources of data about the given token and gives top-tier information on what's currently available.

It is powered by TokenSniffer, CertiK, and many other audit providers with public APIs.

COMPARISON

Compare two tokens between their market cap differences, token fees, risks, volatility comparison, and other security factors.

It is powered by Etherscan, Dextools, CoinGecko, CoinMarketCap, and many APIs.

REDISTRIBUTION TRACKER

REDISTRIBUTION TRACKER is an application with which users can track their favourite token stats over time.

Stats include redistribution, rewards, profitability,
volume, current USD value, total balance, and more.

TOKEN ANALYTICS

TOKEN ANALYTICS enables you to analyze different tokens and make data-backed decisions on your daily investments. You

It is powered by Uniswap's v2.info application and will have additional features such as distribution of holders. It will put holders into different tiers: Kraken, Whale, Shark, Pufferfish, and Shrimp.

It is going to include the most advanced wallet check-up feature on the Ethereum platform that's powered by different APIs found in the blockchain industry

MARKETPLACE

Trade various BRUNO INU related products/NFTs to fund certain marketing funds proposed by the living community.

It is powered mainly by OpenSea API.
